

Optional courses in the summer semester 2025/2026

available if elected by a sufficient number of students

Code	Course name	ECTS	Form of assessment
30-GF-GF-S2-E2-ma-SL	Sandstone landforms	3	z
30-GF-S2-E4-mcO-LR	Landform recognition	3	z

Form of assessment: *E – exam in the exam session after the end of semester, z – based on tests or assignments during the semester*

Short descriptions:

30-GF-GF-S2-E2-ma-SL Sandstone landscapes

Investigating the variety of landforms developed in sandstones at varying scales against the backdrop of different lithological and structural conditions. Discussing the main geomorphic processes shaping sandstone landscapes in varying morphoclimatic zones. The course comprises a series of lectures and two days of field trips.

30-GF-S2-E4-mcO-LR Landform recognition

Recognizing and describing landforms of various origin, at varying spatial scales and climatic zones; on the basis of a wide range of sources (aerial and terrestrial photos, satellite images, digital elevation models). The course consists of classes involving student hands-on activities.
